Therm-Tech Colorado open house invitation

Loveland, Colorado (Sept. 8, 2009) – The Northern Colorado Economic Development Corporation (NCEDC) is pleased to announce an open house for Therm-Tech of Colorado, LLC. The Wisconsin based heat treat manufacturing company, which is family owned and operated, recently expanded into the Rocky Mountain Region. They are currently leasing 26,000 square feet in Loveland utilizing several state of the art manufacturing processes that strengthen and improve metal products ranging from fish hooks to parts for the aerospace industry.

The open house will be held on Thursday September 17, 2009 from 9:00am – 5:00pm in their Loveland facility located in the North West corner of the former Water-Pik building at 629 14th Street SW. Vendors and suppliers are invited to introduce themselves and tour the facility from 9:00am – 11:00am. All other guests are welcome from 9:00am – 5:00pm. Tours, refreshments and giveaways will be provided throughout the day.

“We would like to take this opportunity to formally invite you to meet the Colorado staff, the Owners, as well as the Wisconsin management team during our Open House Celebration.” Tina Maestas, Therm-Tech of Colorado’s Operations Manager said. “Therm-Tech of Colorado is excited to showcase our new Colorado location and would love the opportunity to give you a guided tour of the facility and share with you our capabilities.”

Metallurgist staff will be on hand to discuss Therm-Tech’s unique heat treating processes and introduce a new program called Customer Portal. This program is free to customers and it allows a detailed real-time, 24 X 7, status of all current and past work with the ability to print signed pack slips, certifications, and schedule pickups in addition to email, text, or phone you when a job has shipped.

Please RSVP by September 11, 2009 to Tina Maestas at 970-624-6100 or tina.maestas@thermtech.net.

About Therm-Tech:

Therm-Tech of Colorado, LLC is a new division of Therm-Tech of Waukesha which has become one of the most successful and largest heat-treat companies in the United States. The Colorado location will mimic the Waukesha location's business model in providing a fast and superior heat-treating service. In addition, Therm-Tech of Colorado will offer a major advantage to their customers, with their QTI (Quote to Invoice) software system, Bluestreak. Bluestreak is a web-based enterprise and shop floor management system designed exclusively for the metal treating industry. This system allows companies to run a paperless shop, yet, manage the turn-around and quality requirements for each job in real-time via a customer portal.

Therm-Tech of Colorado offers solution annealing and age hardening of most cast aluminum alloys, carburizing & carbonitriding, cryo-treating or deep freezing, vacuum processing; atmosphere controlled processing for the hardening of steel and annealing, normalizing, & stress relieving of various metals. Visit www.thermtech.net/colorado for more information.

About NCEDC:

NCEDC is a non-profit organization and the primary resource in Larimer County to assist with business attraction & business retention & expansion of Primary Employers. Year to Date NCEDC staff has assisted with the creation of 463 primary jobs with a total payroll of nearly \$26 million.
