Ms. Stacy Johnson
Director of Business
Retention and Expansion
NCEDC

Dear Stacy,

Please accept my appreciation for the work that you and your office have done this past few months for Ensign Power Systems, Inc. The chance meeting at the table during the Business Appreciation luncheon has been most advantageous for our small business. Your assistance in helping us understand how to take advantage of Business Funding for new projects and employee training has helped to take the “sting” out of some of our growing pains.

I also appreciate the time that you spent helping me understand maneuver through and understand the issue of water for our new facility. I believe we will be able to get what we need in the most economical way possible at this time.

Once again, thank you for your efforts on our behalf.

All the Best,

Dan Danowski
President
Ensign Power Systems, Inc.
